

DELTA KLEPBESLAG

De multifunctionele Delta klepsteun is toe te passen bij op- en neergaande kleppen en deuren.
De Delta is zowel links als rechts te monteren door middel van de los meegeleverde bevestigingspunten.
De scharnierzijde omstelklip (A) bevindt zich onder het scharnierpunt.
De remkracht is in te stellen door middel van de inbus schroef (B) in het hart van het scharnierpunt.
Door de remkracht te verstellen blijven kleppen en deuren in iedere gewenste stand openstaan.
